To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL, especially when he can do so at the same prices asked by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

Still Another Democratic Convention.

The Southern wing of the Democratic party, following the example of their Northern brethren, have adjourned to meet again at Washington, on the second Monday in June. They decline all further fellowship with the DOUGLAS tribe, and propose to organize and go ahead on their own hook.—They expect the co-operation of several Northern States in this movement, and are confident of carrying the entire South with them. If they are correct in these anticipations, the DOUGLAS game is up, and the alternative before the people of the United States will be the election of a REPUBLICAN President, or a protracted, bitter and doubtful "sectional" contest in the House of Representatives. There is every reason to believe that they will decide in favor of the former.

The Republicans of Virginia.

The Mass Convention of the Republicans of Virginia, held at Wheeling last Wednesday, was largely attended. A full delegation was appointed to Chicago and the following resolutions adopted:

1. That the Republican party of the State of Virginia cordially approve of the doctrines contained in the said call for the National Convention to be held at Chicago, and hereby pledge themselves to a hearty support of the nomination made in pursuance thereof.

2. That we are in favor of such a tariff as will afford adequate protection and encouragement to the products of the white laboring men of our own country against those of foreign countries.

3. That we are in favor of equality of rights among all citizens, and opposed to persecuting any one citizen on account of his opinions or his place of birth.

4. That in view of recent events on the continent of Europe, and condemning the position taken by the present Administration, we hold it to be the duty of the American Government to maintain the principle that those naturalized citizens who visit the countries of their birth are equally entitled to immunity from impressment into foreign armies as if they were American born.

5. That we are cordially attached to the provisions of the Homestead Bill, as originated and passed by the Republican party in the House of Representatives, holding, as we do, that our unsettled domain shall be reserved for free homes to free men, who will redeem it from the wilderness.

6. That if, from any unforeseen cause, any of the delegates appointed by this Convention to the National Convention at Chicago shall be prevented from attending, the delegates who may be present shall have power to fill such vacancies from citizens of the State who may be present.

7. That our next National State Convention be held in the city of Richmond, upon such day in the year 1861 as the State Executive Committee appointed by the Convention shall determine.

AFTERNOON SESSION.

At the afternoon session there were at least fifteen hundred people present. Speeches were made by the Hon. JAMES WILSON, M. C., of Indiana, and by J. C. UNDERWOOD.—The speech of the former elicited great applause. Hon. FRANK P. BLAIR, Jr., of Mo., is to speak this evening.

EVENING SESSION.

WHEELING, 10 P. M.

The Convention has just adjourned. This evening its session was attended by three thousand people, representing nine Congressional districts. The greatest enthusiasm prevailed. The applause was frequent and deafening. Music was given by the band, and there were other demonstrations, which showed the depth and earnestness of the Virginia Republicans.

Mr. BLAIR made a powerful speech, and was continually greeted with applause.

WHAT THE SECEDING STATES WILL DO.—The delegates from Georgia, Alabama, Louisiana, Mississippi, Texas, Arkansas, Florida and South Carolina, having seceded from the National Convention, and organized themselves as a party outside of the National Democratic organization, are no longer delegates and will not apply for seats at Baltimore. The power delegated to those men has reverted to the State organizations. New conventions will be held in those States, and new delegations will be appointed. The States of Alabama, Georgia, Arkansas and Louisiana will be represented at Baltimore, and by delegations representing the Democratic people of those States.—*Chicago Times (Douglas) of yesterday.*

This, no doubt, is the DOUGLAS programme for the Baltimore gathering. Having failed to obtain a nomination from the Convention, as originally constituted, Mr. DOUGLAS and his friends propose to read the "seceders" out of the party and replace them by more pliant members. A Convention "packed" to order, will not carry much weight with the people.

HALF FARE TO CHICAGO.—The Detroit and Milwaukee Railway Company yesterday announced that persons attending the National Republican Convention at Chicago, would be carried over that road at half fare. By this route persons can leave Detroit either on the morning or evening trains on Monday or Tuesday, the 15th and 16th, for Grand Haven, and from thence can go, either by the Company's steamships by way of Milwaukee or direct to Chicago by the steamer Comet. The Comet leaves the latter place on her return on Friday afternoon, the 18th inst. Full fare will be paid going, when free return tickets will be issued. We presume similar arrangements, as regards fares, will be adopted by the other roads.—*Detroit Daily Advertiser.*

We hope that the delegates from the East to the Chicago Convention will take the Detroit and Milwaukee Railway route, going or returning. It will give them the opportunity of spending a few hours, or days in our city, and of seeing a very attractive portion of Michigan.

COMPLIMENTARY, VERY.—The last number of the *Southern Confederacy,* published at Atlanta, Georgia, has the following complimentary notice of the Northern Delegates at Charleston.

"High prices for board, the hot climate, the fear of yellow fever and Southern assassination, has rid the Convention and the city of many annoyances. Such is the dread of assassination by the Yankees, that it is almost impossible to toll them from their quarters after nightfall. They retire early, pray for the nomination of Douglas, and their immediate delivery from so hot a climate.—They try very hard to act like Southerners by eating rice and turnip salad, but invariably retire from the table with potatoes and a lump of salt in their pockets."

MR. ELLIOTT the well known portrait painter of New York, discovering that one of his pictures at the National Academy was badly hung, cut the canvass from the frame and carried off the picture. A suit has been commenced against the irate artist commanding him to return it, but before the law can be brought to bear, the exhibition will be closed.

INDIANS.—One Indian shot another on the bottom near the Trempeleau bridge, Trempeleau, last week. A relation of the murdered man went off to find his brother. As soon as he returns a council is to be held to determine what shall be done with the murderer—whether he shall be allowed to buy himself off, or according to the old Mosaic law, "blood for blood" shall be carried out to the letter.

Affairs of the Milwaukee and Mississippi Railroad Company.

The New York *Herald,* of the 1st instant, contains the following article in regard to the settlement of the financial difficulties of the M. & M. R. R.:

"The bondholders of the Milwaukee and Mississippi railroad company, held an adjourned meeting to-day at the office of the company, and adopted unanimously the plan submitted by the Bondholders' Committee for the reorganization of the company, placing the management of the road in the hands of the bondholders. The plan is substantially as follows:—

First mortgage on first section, 8 ℔ cent	$600,000
First mortgage on second section, 8 ℔ cent	647,000
Total	$1,247,000

The foregoing and accrued interest may be converted into 8 per cent. first preferred stock, or may remain as a lien on the road:

First mortgage on third section, 8 ℔ cent	$1,037,000
First mortgage on Southern Wis., 8 ℔ ct	216,000
Total	$1,253,000

The holders of the foregoing are to receive 8 per cent. first preferred stock for the principal and accrued interest, and, with the holders of second mortgages, as stated below, may take the control of the road.

Second mortgage, 10 ℔ cent. bonds	$600,000

The holders of the above are to receive second preferred 8 per cent. stock for principal and interest, and, with the first preferred stock holders will manage the road, elect directors, &c.

Second Mortgage on the Southern Wis. Line to the City of Milwaukee is	$300,000
Third Mortgage on the whole line, 7 and 8 ℔ cent	395,750
Total	$695,750

The above, with accrued interest, to be converted into Third Preferred 7 per cent. stock. A fourth class of stock, called Common stock, to be issued in discharge of all the stock now outstanding, and including Farm Mortgages unsecured indebtedness against the road. Under this organization, as authorized by a late law of the State of Wisconsin, the income of the road is to be appropriated as follows:

First—Pay running expenses.
Second—Pay interest on mortgages outstanding.
Third—Pay 8 ℔ cent. on first prepared stock.
Fourth—Pay 8 ℔ cent. on second preferred stock.
Fifth—Pay 7 ℔ cent. on third preferred stock.
Sixth—The surplus, if any, to be employed in sinking the preferred stock to three millions, or until its value has reached par in New York.
Seventh—Whenever these conditions are reached, the surplus shall be invested in the purchase of the common stock, until the whole capital stock, both preferred and common, shall be reduced to six millions.
Eighth—When the capital stock shall have been reduced to six millions of dollars, and the road shall have earned a dividend on that amount in any one year, equal to 7 ℔ cent., dividends shall be declared on all the stock; instead of sinking the shares.

This is a step in the right direction, and should be imitated by other concerns in embarrassed circumstances."

RANDALL AND RICHARDSON.—BROWN, the government editor of the *Constitution,* writes as follows of the attack by RICHARDSON, of Illinois, upon RANDALL, of Philadelphia:

"The insolent, braggart attack on Mr. Josiah Randall, of Pennsylvania, by Mr. Richardson, of Illinois, disgusted every gentleman present. It will be seen by the report of the day's proceedings that the venerable delegate from Pennsylvania gave no offense to anybody; that he only gave his opinion, in courteous, though firm language, as he had an undoubted right to do, and that Mr. Richardson assailed him most vulgarly. Old as Mr. Randall is, he immediately handed his card to Mr. Richardson, and the former was compelled to make an humble apology for the gross and unprovoked outrage he had committed."

MAY FLOWERS WITHOUT APRIL SHOWERS. The Dodge County *Citizen* talks in this manner of wild flowers already. We are half inclined to think he has seen nothing but flowers of fancy:

"The teachers and pupils in the High School devoted the afternoon of Tuesday last to an out-door excursion, in search of the flowers and other tokens which usually herald the opening of May. The day was cold and windy, but we understand the party had an exceedingly happy time, and returned with many large boquets of wild flowers.—We are quite sure that frequent excursions of this kind in the warm season, would have a favorable effect upon the labors of the school room."

THE MANITOWOC TRIBUNE says that a mad dog entered the house of Mr. BROWN, of that place, a few days ago, and made a savage attack upon the inmates, but was finally dispatched with a revolver. Wherever there are dogs, revolvers ought to be an accompaniment.

The same paper also states that the jury in the case of the THOMAS BROS., tried for alleged murder of a Bohemian some time since, brought in a verdict of acquittal, and the prisoners were discharged.

THE RAIN THURSDAY.—We rejoice to learn that the welcome rain fell heavily all over our State, during Wednesday night and Thursday, and that the effect upon the growing crops has been magical. We hear from gentlemen who have traversed a good portion of the State, during the past week, that an immense breadth of land has been sown to club wheat and other spring crops, and that the grain, where it has come up, stands thick and even, and gives promise of a heavy crop.

SHOOTING AFFRAY AT BERLIN.—An affray occurred between HORACE WORDEN and CHAS. H. BARNES while at a game of cards, in Berlin, on Monday last, during which the former commenced an attack on BARNES, and the latter drew a pistol and discharged it, the ball grazing WORDEN'S face. BARNES gave himself up and was held to bail in the sum of $500 to appear at the next term of court.

ON FRIDAY LAST Mr. ROBERT DRUMMOND, of Fond du Lac, was thrown from a vehicle and sustained considerable injury. On Monday, Mr. MORRISON, of PERKINS, MORRISON & Co.'s bakery, was also thrown from a vehicle at the same place, breaking his ankle bone.

EARLY LIGHTNING.—During a thunder storm last Thursday, a barn at Berlin, Green Lake county, was struck by lightning and entirely consumed. A man was in the barn at the time with a span of horses. The man was struck senseless, one horse killed and the other severely burned.

WOOD BURNED.—Last Saturday a large pile of wood at Chester, Fond du Lac county, took fire from the sparks of a locomotive and 175 cords were destroyed. Being close to the R. R. track it created such a heat that the freight train due at Fond du Lac could not pass and had to telegraph for a fire company.

INTERNATIONAL MATCHES.—We are to be surfeited with international matches now. The sporting papers announce an international sculling match—an international billiard match—an international racket match—and an international *yacht* match.

THE EXCITEMENT in New York in regard to the prize fight may be judged of, by the fact that on Wednesday night it was announced at the Opera that the news had arrived, and in ten minutes not twenty gentlemen remained in the house.

FIRE AT GREEN BAY.—On Sunday last a fire broke out in the barber shop of J. L. TITUS, in Green Bay, and as a strong wind was blowing, the building was destroyed. Loss about $250. No insurance.

RACINE ITEMS.—GONE TO WAUPUN.—Sheriff Everitt started to Waupun on Monday afternoon, having in charge two prisoners, Authur Rice convicted of forgery, for two years, and Josephine Clarine, guilty of larceny, one year.

ASHORE.—The schooner North Star, of Milwaukee, from Oconto to this port with a load of lumber, ran ashore in making the harbor, just north of the pier. She lies on a sand bottom, considerably strained, and makes water faster than a steam pump can take it out.—*Advocate.*

A NOVEL ENTERTAINMENT.—Two sisters, the Misses BAKER, of Roxbury, Mass., the elder hopelessly blind since she was three years old—propose to give a novel and attractive entertainment at Albany Hall, on Friday evening next. It will consist of an interesting address by the younger sister, and a "prose poem," interspersed with music, by the elder. The theme of the poem is "Inner Life," in which the blind poetess gives us her ideas of the "beauties of nature;" beauties, which to her at least, are only visible to the mind's eye. The Louisville *Journal,* speaking of this poem, characterises it as a production of remarkable merit, and is warm in its praise of the entire entertainment. At New Orleans, Memphis, Louisville, Chicago, and other cities, these sisters have met with a generous welcome, and their clever entertainment has secured liberal patronage. Let us hope that Milwaukee will give them a like cordial greeting next Tuesday.

NOT MUCH OF AN OBSTRUCTION.—Those gentlemen who opposed the Horse Railroad supposing it would be an obstruction to the streets, must by this time be convinced of the groundlessness of their alarm. The track has for some days been laid nearly the whole length of East Water Street from Wisconsin southward, and although the street seldom has been more thronged with vehicles of all descriptions, not the slightest inconvenience has been experienced when the work is completed. Indeed so snugly is the track put down, that a stranger would never imagine that there was a Horse Railroad running along the centre of the street, unless his attention were especially directed to the fact.—The contractor, Mr. MEYERS, is entitled to much credit alike for the rigorous and efficient manner in which he has prosecuted the work.

CLASSICAL BILL.—The interesting young man who localizes for the *Sentinel;* need never expect that we shall pay the least attention to any of his butcher-boy blackguard. When we get surcharged with bile, and fall to hating everything and everybody, and there is nothing to publish in the paper that would interest readers, then perhaps we may be induced to "sass back;" but we trust that none of those conditions will ever transpire —*Wisconsin.*

We have come to the conclusion that we have most effectually cured CLODY of "sassing back." When we made our appearance among the Milwaukee fraternity, he was highly prolific of "sass;" but somehow or other, a change has come over the spirit of his dream, and the above modest request to let him alone, is all that we can get out of him. Out of regard to his feelings, we shall in future refrain from stirring him up except on extra occasions.

THE NEW CITY HALL.—We took a stroll yesterday through the new city hall and imagined ourselves amid the ruins of Carthage. The pyramids of unsightly bricks, and the fragments of dislocated timbers were all that promised an item. We found four men at work on the second floor, leisurely taking down one of the timbers. That was all.—"Slow and sure" was apparent everywhere. The merry clink of masons—that we hear tell of,—the notes of preparation were not heard. Whether the contractor has got sick of his job or is only recuperating, we cannot say. The improvements, as far as they have gone, are all very good, but they ought to be completed, at least to our taste.

ARRIVALS OF MERCHANDIZE.—We have been obliged to give up publishing the arrivals of merchandize in detail, as two of the principal lines could not, with the press of spring business, afford time to furnish us with copies of the lists, or even allow the use of their books to copy them from. With the present excellent facilities Milwaukee possesses for speedy handling and shipping of freight, the omission of this feature from our columns will be less inconvenient to the country merchants than in former times, for all along the railroad lines, they receive their goods very nearly, if not quite as soon as the paper could reach them.

THE ADRIAN EXPOSITOR, published by S. P. JERMAIN & Co., at Adrian, Mich., has been changed from a tri-weekly to a daily.—This evidence of prosperity must be gratifying to the many friends of this able sheet.

The Academy of Music—The Theatre.

The problem seems to be solved now. We hear less of the impossibility of supporting a theatre in Milwaukee, as it becomes evident that a theatre *is* being supported. This is proving what we have said all along, that the whole thing depended on the management. Mr. WEBB has set about the matter in earnest and has gathered as good a stock company as can be found anywhere outside of WALLACK'S; he has varied the pieces judiciously, and we find that, he has so far, met with a very liberal support from the community.

The company at present combines a great deal of versatility and considerable talent.—The Misses WEBB are already great favorites, and are justly applauded night after night, by the most respectable and discriminating audiences. Miss ADA, who it is useless to deny, is abundantly blessed by nature with all the requisites to charm an audience, is one of those peculiar, brilliant bodies that at this age of theatrical amusements are seldom met with. There is a glow of health about her that puts rouge to shame, and when she washes her face with the water and rubs it with the bar of soap, in "Our Nan," the operation always leaves her cheeks more rose-tinted than before. Well, that's something to be sure, when we consider that even the *magicienne* of extravaganzas the charming LAURA herself, paints and powders until she destroys her health.

There is a vivacity in Miss ADA'S movements, a fresh sparkle in her eyes, and a youthful, genuine artlessness in her style, which are refreshing to *habitues* of the theater. Her sister, who performs in a higher role, in reality, made her *debut* as *Pauline* in the "Lady of Lyons;" her representations before this giving us no idea of her power, whatever. Her voice, though not strong, is admirably and artistically managed, and her conception of BULWER'S highly romantic sentiment was perfect. Under good teachers Miss EMMA WEBB will yet make her mark in the dramatic world.

Then we have BILLY O'NEIL, who, with the exception of JOHN BROUGHAM (whose Irish delineations are altogether of a different school,) we can remember no one that we like better. That essential qualification—"mother wit"—made apparent in what is professionally termed "gagging"—is rightly understood by O'NEIL. It would take a heavier man than CHAPEL to disconcert this jolliest of all "Mark Tapleys." Mr. O'NEIL is equally at home outside of the "brogue," and the testimony of a convulsed audience always greets him, be he Yorkshireman or Flunky.

Our old friend WILSON—who has a way about him like OLD BLAKE—is deserving of a better notice than we have yet given him. He is the only one in the present company who remains to us from the former "Atheneum;" and while we regard him as an old friend, we believe it is not too much to say his representations are of a much higher order of merit than can be found anywhere in the western country, among the class of characters which are his own. WILSON is also a favorite and always will be.

Recently, the management have added to the company Mr. CONNER and Mr. FOSTER, both of whom have been received with an enthusiasm that betokens their ability. Add to them the name of PAIGE and DEGROAT, and it will be seen that we have a stock company every way worthy of the patronage of our theater going people.

We suggest to Mr. WEBB, now that he has initiated the standard drama, that he give us SHERIDAN'S famous play of "The Rivals." What a *Sir Anthony Absolute* WILSON would make, eh—here, we'll cast the Play. *Imprimis—Sir Lucius O'Trigger,* O'NEIL. *Captain Beverly,* FOSTER. *Mrs. Malaprop,* Miss ADA WEBB. *Miss Lydia Languish,* Miss EMMA WEBB, &c.

Think of that. And then what say you to "Much ado about nothing." We fancy, Mr. WEBB, you have a rare "Benedict." But we charge you nothing for these suggestions.

Circuit Court.

The case of G. W. D. ANDREWS was yesterday given to the Jury, after a lengthy summing up by the counsel. The jury were out about fifteen or twenty minutes and returned a verdict of not guilty. Mr. ANDREWS and his wife (who has accompanied him in court during the whole trial) did not seem to be affected at all by the announcement, but a number of his friends among the spectators immediately commenced to applaud His Honor, Judge MCARTHUR promptly and effectually rebuked the demonstration.

Immediately after the rendition of the verdict, CHAS. H. HOLT, of the U. S. A., stepped up to Mr. ANDREWS and attempted to arrest him on a charge of being a deserter.—R. R. MENZIES, one of the counsel for the defence, however, claimed that *he* had already arrested him for the same offence; and Mr. ANDREWS, accompanied by his wife and Mr. MENZIES, shortly after repaired to the Newhall.

It may be well to state here, that it is alleged Mr. ANDREWS entered the army three times, the last of which was on April 24, '53, for five years, and that on the 12th of April, 1855, he deserted. A deserter can be arrested by any person or persons—the only difficulty being in identifying him—to receive the reward.

PERSONAL.—The Dodge County *Citizen* says:—"We are pleased to say that the Rev. J. J. MITER has returned once more to this city, and will resume the charge of the First Presbyterian Church on Sunday next. The numerous personal friends of Mr. M. will rejoice to see him once more in his old post of labor. We experience more satisfaction in noticing his return, as it has been said that he was anxious to get away from Beaver Dam. The falsity of this assertion is now apparent, and we hope it will be noticed by some of the busy-bodies in Milwaukee who sent a statement of this character to a country paper. The pulpit of the First Presbyterian Church has been filled, during Mr. MITER'S absence, by Rev. J. A. HAWLEY, a gentleman of much ability as a preacher, who has made many friends during his short residence here."

FAXON & VAUX have removed their wall paper and window shade establishment to Young's Block; on Main street, where they are now pleasantly and advantageously located and prepared to offer their immense stock of French and American wall papers, and window shades at lower prices than they have yet been offered to the Milwaukee public. Messrs FAXON & VAUX employ the best of workmen, as the work at the Academy of Music and elsewhere will testify. A few moments spent in their new store will abundantly satisfy any one of their ability to execute decorative and ornamental work in the highest style of art.

BASE BALL.—Milwaukee Base Ball Club will play a match on the grounds, Spring-st. Hill, this afternoon, commencing at 3 o'clock. An omnibus will start for the play grounds from the corner of Main and Wisconsin streets, ten minutes before three.

MUNICIPAL COURT, May 4.—Patrick O'-Rourke, drunk, (an old offender) fined $1 and costs. Paid.

No other business was transacted in Court to-day.

Our Railroads and our City.

MR. EDITOR:—There is no disguising the fact that at no period, within the past ten years, has business been closer, or money more difficult to obtain upon mercantile and business securities, than at the present time in our city. Recent occurrences have induced me to look into the causes of the close times amongst us, after the large crop of last year, and the plenteousness of money in the Eastern States, and I am satisfied it is in no small degree owing to the oppressive management of the two Rail Roads leading from this city to the Mississippi river, more than from all other causes combined. These roads, instead of fostering our trade, are absolutely driving it away from the city. When it is considered that it is owing to Milwaukee capital and Milwaukee city credit they have an existence, this may be looked upon certainly as ungrateful, ruinous, and as a permanent policy, unwise. It is an indisputable fact that both of these Railroads, built by Milwaukee enterprise and with Milwaukee credit, are to-day doing more to advance the interests of another and a rival city, which contributed nothing toward their construction, than they are for Milwaukee.

The merchants, manufacturers, and real estate owners, who are not inside the railroad ring, are feeling this at the present moment, most keenly.

We have a Board of Trade, or a Chamber of Commerce, or a Corn Exchange, or an organization of some sort, with some such name, formed from a part of the business men of the city. Will they appoint a committee of their number to examine into and report whether the following are not facts ?

That merchandize is taken to and from Chicago to La Crosse and Prairie du Chien, mostly over Milwaukee roads, as cheaply as it is from Milwaukee, when the distance for the property taken by Rail Road conveyance is at least 60 miles, and by lake 90 miles in favor of Milwaukee:

Whether vessels from Buffalo cannot land goods at Chicago, and have them taken to the Upper Mississippi by Milwaukee Rail Roads, as cheaply as if they were to land them in Milwaukee ?

Whether certain classes of goods are not charged *forty-nine* cents per hundred pounds to land them at Milwaukee from La Crosse or Prairie du Chien, when the same goods can be sent from Milwaukee to New York city, *all the way by rail, for fifty cents per hundred ?*

Many other things equally significant and as pertinent as the above, to our interests as a commercial city, can be pointed out to a committee who will look into and report upon the matter to the public. If the association, or combination alluded to, will not take some action in the premises, would it not be well for the Common Council to take the matter in hand, and if it can do nothing more, it can at least retaliate by enforcing the law passed last winter to relieve towns and cities who had loaned their credit from being further punished by railroad rascality.

Our railroads have refused and even neglected to pay the interest on the credit the city has loaned them; and it is more than probable nearly the entire loan to them will prove a loss to the city. If, after having punished the city this much, I submit whether it is not piling up the agony a little too high for the roads now to turn round and cut the throats of the business interests of the city that has created them ?

If the reports be correct of a certain large sum which has within a few weeks been divided among a portion of the managers of one of the roads alluded to, and this, too, when the stock is not worth a cent on a dollar, those gentlemen managers can certainly afford to be fair, if not generous, to their business neighbors, who are struggling hard to sustain themselves and promote the interests of Milwaukee. A MERCHANT.

SPALDING'S PREPARED GLUE.—A very useful and convenient article for housekeepers and others, is "Spalding's Prepared Glue." It is one of those inventions, small in themselves, which, nevertheless, go far in the economies of household management, and are an ever-present aid in saving time, expense and trouble. The number of small repairs to furniture, picture-frames, crockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good and ever ready article of this kind may be applied, will at once suggest themselves to the ladies. Damaged book-covers, loosened leaves, dilapidated maps and herbariums, will remind the student and book-worm of its value. This glue is compounded with chemicals which hold it permanently in solution until it is applied, without affecting its strength, and which serve to give the adhesive matter a firmer hold on the surfaces to be united, after which they quickly evaporate, leaving the glue to harden with rapidity and tenacity. It is estimated that there are at least five millions of households in the United States, and that an outlay of from one to ten dollars is annually required to make small repairs for furniture alone, apart from the numerous neglects and make shifts that are necessarily resorted to.—*New York Times, August 9, 1859.*

CARS FOR OUR HORSE RAILWAY.—The Buffalo *Express* of Wednesday last contains the following item:

"MILWAUKEE CITY RAILROAD.—Some miniature passenger railway cars for the River and Lake Shore City Railway of Milwaukee, arrived here yesterday en route for Milwaukee. These cars are complete and attractive, and of the most modern style, built by the firm of Kimball & Gorton, of Philadelphia. The builders deserve great credit for the style and finish of these elegant vehicles. Mr. Easton will allow them to remain at the New York & Erie freight depot, foot of Ohio st., a few days, in order that our citizens may, in view them, and form an idea of the comforts soon to be enjoyed in our own street location."

WE INSERT ELSEWHERE the advertisement of G. H. LAMBERTON, Esq., in Produce, Storage and Commission business. Mr. LAMBERTON gives as good references as can be found either East or West. A hundred more might be added from our own city and State, who can testify to his enterprising and correct business habits, as well as to his uprightness, promptness and responsibility.—We cheerfully recommend him to country or city dealers, who may have produce to consign and we wish him success.

N. L. RICE, D. D., of Chicago, will preach to-morrow in the North Presbyterian, (Rev. Mr. BUCHANAN'S) Church. The Doctor is one of the ablest Divines in the country, and has been conspicuous in its religious affairs for nearly half a century. He has occupied a leading place in the pulpits of Cincinnati, St. Louis and Chicago, and some of the ablest works in theological literature have been the products of his pen.

"STRAINING AT GNATS AND SWALLOWING CAMELS."—The *Wisconsin* last week had a very pious (?) article justifying the closing of a hall in Milwaukee against Miss Sprague, as her lectures might be injurious to christianity, &c. Now he parades a rooster and hurrahs for Heenan, and fills the outside of the paper with all the details of the fight, written in the most brutal style of pugilistic slang, and boasts of the American champion and his own taste in the selection for his readers!—*Albany Times.*

LECTURES.—Miss MARTHA F. HULETT, a popular trance speaker and medium, will commence a course of lectures in Good Templar's Hall, Bowman's Block, on Sunday, at 3 and 7 1-2 o'clock P. M.

Admission ten cents to defray expenses.

BOARD OF SCHOOL COMMISSIONERS—THE PUBLIC SCHOOLS.—The Board of School Commissioners met last evening, to elect officers and organize for the current year. The newly appointed members of the Board were sworn in and took their seats. Mr. EDWARD O'NEIL, who presided over the Board during the past year, was re-elected by a unanimous vote, a well-deserved compliment to a good citizen and faithful public servant. The salary of Superintendent, for the ensuing year, was fixed at $1,000, Clerk hire inclusive; and JONATHAN FORD, at present principal of the Eighth Ward School, was elected to that office. Mr. FORD is well qualified for the post, and will discharge its duties honestly and efficiently.

On motion of Mr. QUENTIN, the Board, after a brief discussion, resolved to keep the Public Schools closed for a fortnight longer, to give time for a conference with the Common Council as to the ways and means for carrying them on. It was likewise resolved to dismiss all the teachers and other persons in the employ of the Board; with the understanding that those whose services should be required would be re-appointed as soon as the Schools are opened again. A committee of one from each Ward was appointed to confer with the Common Council.

By this action of the Board, the Public Schools, which were to have been opened on Monday next, for the Spring and Summer term, will remain closed until Monday fortnight. It is hoped that, by that time, matters will be so arranged as to admit of the schools being re-opened and the teachers re-employed.

OUR ENGLISH CORRESPONDENT has arrived, and has received the news of the prize fight with genuine English good spirit. Before he writes us again, we commend to his attention the following epigram:

Looking wise, from his trip, as an owl.
He expected a lion to meet, but good lack,
He was met by an English *foul.*

Campaign Tribune!
REPUBLICANS AROUSE!!
WE PROPOSE TO ISSUE A CAMPAIGN EDITION of THE N. Y. SEMI-WEEKLY TRIBUNE, commencing with the regular issue of May 18, which will contain the proceedings of the Republican National Convention at Chicago, and closing with the issue of November 9, in which we hope to announce the triumphant choice of a Republican President and Vice-President.
THE CAMPAIGN TRIBUNE will thus consist of fifty-one regular issues of THE SEMI-WEEKLY TRIBUNE being the full size of the Daily and Weekly editions, and one of the largest newspapers printed, containing few advertisements, but giving a full, current history of the
Presidential Canvass of 1860,
The Platforms of the several parties, their candidates, arguments, meetings, speeches, &c., with all the intervening State Elections, and full summaries of the Foreign and other news of the day, including letters from our correspondents in England, France, Germany, Italy, California, South America, &c., &c. This issue will not therefore be read and prized by ardent politicians only, but will be interesting to all, and thus calculated to win the indifferent as well as to arouse and stimulate those already convinced that the Republican cause is founded in truth and justice, and therefore ought to prevail.
THE CAMPAIGN TRIBUNE will be mailed on the following terms, payable always in advance:
For a single copy (51 issues) $1
" 11 copies " to one address 10
" 24 " " " 20
" 100 " " " 50
Whoever sends $10 for 11 copies may at any time afterward increase the number to 24, or from 24 to 100, by sending the difference as above between the price of the smaller and that of the larger club.
Our own interest in thus issuing papers at a price barely exceeding the cost of the white paper is so slight that we do not hesitate to urge all who desire the triumph of the Republican cause to cooperate with us by early and earnest efforts to give a wide and general circulation to THE CAMPAIGN TRIBUNE.
We will send specimen copies to any one who shall write for them. Address

THE SENTINEL.
DAILY, TRI-WEEKLY & WEEKLY.
RUFUS KING, EDITOR.
SATURDAY MORNING, MAY 5, 1860.

The End of the Charleston Convention.

As our readers already know, the National Democratic Convention, after a troubled existence of eleven days, came to a violent end on Thursday last. The DOUGLAS leaders, finding it impossible to nominate their own man and determined that none other should be nominated, carried a motion for adjournment to Baltimore on the 18th of June. What the seceders, who compose the other Convention, will do in this contingency, remains to be seen. They too, may adjourn for a while, to take counsel with their constituents at home; or, as they claim to be the regular Convention, they may proceed with business, adopt the Pro-Slavery Platform, and nominate their candidate. In any event it seems quite certain that they will not resume partnership with the DOUGLAS wing, or join in the proceedings at Baltimore, unless their demands in regard to the candidate, or the platform are complied with. We do not see therefore, how Mr. DOUGLAS is to gain anything by the change of *venue*, which his friends have brought about. Indeed, it will be regarded by some, at least, of the "soldiers of fortune" who follow his flag, as a fatal indication of weakness; and as they belong to the class who worship only the rising sun, they will be apt to desert his service on the first opportunity. Moreover his opponents in the Democratic party, embittered by the fierce discussions and the angry struggle at Charleston, and encouraged by the partial success already obtained, will redouble their efforts to kill off a candidate whom they both fear and hate. Under these circumstances, it may well be doubted whether Mr DOUGLAS will be able to muster as many votes at Baltimore, as he obtained at Charleston; and if it be true, as the telegraph reports, that New York and New England were wavering in his support, when the adjournment was carried, he may be withdrawn as a candidate altogether, before the Democratic Convention re-assembles.

It is very confidently stated that the plan of the Southern leaders, who engineered the "bolt" at Charleston, is *to throw the election for President into the House.* Their calculation is, to nominate electoral tickets in all the Southern States, headed by DAVIS, of Mississippi, HUNTER, of Virginia, or some Doughface from the North, and thereby secure the united Southern vote; while they expect DOUGLAS will be able to carry three or four States, and thus break the Northern phalanx. But we have no belief that this game, if attempted, will win. The people are not disposed to delegate to the House of Representatives the responsible duty of choosing a President for the next four years.—They will choose one for themselves, and our abiding faith is that the nominee of the Chicago Convention will be THE MAN.

Michigan for Seward.

The Republicans of Michigan met in State Convention at Detroit, on Wednesday last, to make choice of Delegates to the National Republican Convention which is to assemble in Chicago on the 16th instant. The attendance was large, and the action of the Convention entirely harmonious. There was not a single dissenting vote to the resolution declaring WILLIAM H. SEWARD to be the first choice of the Republicans of Michigan for President of the United States. The Delegates elect are as follows:

DELEGATES AT LARGE.

Hon. Austin Blair, of Jackson—C. W. Lee, alternate.
W. W. Murphy, of Hillsdale—W. B. Montgomery, alternate.
J. W. Ferry, Ottawa—J. H. Andrews, alternate.
J. G. [illegible] Clair, Marquette—Morgan Bates, alternate.

DISTRICT DELEGATES.

First District—J. G. Peterson, of Wayne; alternate, H. T. Backus, of Wayne; A. D. Crane, of Washtenaw; D. Cramer, alternate.
Second District—Jesse J Beeson, of Cass; D. Larnebee, alternate; Wm. S. Stoughton, St. Joseph; N. D. Hewitt, of Branch, alternate.
Third District—Franklin Quinn, of Berrien; Erastus Hussey, of Calhoun, alternate; A. H. Carry, of Kent; [illegible], of Montcalm, alternate.
Fourth District—D. C. Buckland, Oakland; A. T. Crossman, Genesee, alternate; Michael T. C. Plessner, Saginaw, C. B. Parkhill, Shiawassee, alternate.

Among the resolutions adopted were the following:

Resolved, That Wm. H. Seward, the tried and lifelong supporter of Republican principles, the statesman of his time, eminently conservative and national in his views, commanding, in private and in public life, the respect of all sects of all parties, North and South, is our first choice as a candidate for the Presidency; and under his leadership we shall enter the contest with an unwavering hope that a glorious triumph awaits us over the broken and disorganized factions of the Democracy.

Resolved, That our delegates are hereby instructed to cast the vote of Michigan for him as a unit, and use all honorable means to secure his nomination.

Resolved, That the Republican party of Michigan, now, as heretofore, require and demand, both in State and National affairs, an economical and honest administration of government, and are ready to put their mark of displeasure and disapproval upon every violation of official integrity, and every attempt to convert the forms of government and the finances of the people into sources of personal aggrandizement and partisan reward.

MICHIGAN, like WISCONSIN, is unanimous for SEWARD and should he be the Republican nominee—as we trust and believe he will—Michigan will give him 20,000 majority over any opponent.

The Next Convention.

The next political Convention announced in the bills of the day is that to be held by "the Old Gentleman's Party," at Baltimore, on the 9th of the present month. This Convention will be mainly composed of decayed Whigs, disappointed Democrats, chronic Know Nothings, and constitutional Union-savers. The leading organs of this composite party are such well-known "K. N. papers as the New York *Express*, Buffalo *Commercial*, Baltimore *Patriot*, &c., &c. Of course, they have no expectation of electing the candidates they may nominate, but they have great hopes of being able to drive a trade with either the Republican, or Democratic party.

Wisconsin, we learn, is to be represented in this "National Union Convention," by Messrs. C. O. BELDEN and ROBERT CHANDLER, both of this city, who are delegates from the State at large. They will represent our State creditably, though the party in whose behalf they appear, is by no means a formidable one in Wisconsin. We do not sympathize in the least with their political views, or their Baltimore mission, but wish them, personally, a pleasant time and commend them, as good citizens and genial gentlemen, to the hospitable offices of our brethren of the press in the Monumental City.

The Supreme Court.

One of the most important issues in the pending Presidential contest is found in the fact that in the natural order of things four places on the bench of the Supreme Court of the United States are likely to be vacated by deaths before the 4th of March, 1865. These four are all Democrats, all endorsers of the Dred Scott decision, and it is the purpose of the South so to control the election that men like unto them shall fill their vacant seats. It is a pity that the ermine of our highest court should thus be dragged in the mire of politics; but nothing is more certain than that the policy of the General Government in regard to Slavery in the Territories is to be virtually decided for the future by the political complexion of the Supreme Court.—*Buffalo Commercial Advertiser.*

The above paragraph calls the attention of the people of the United States to a very important issue involved in the coming Presidential election. It is well known that the present United States Supreme Court, the highest judicial tribunal in the Republic, is intensely partisan and pro-Slavery. There is no doubt that, if the Sham Democracy succeed in electing their man next Fall, the partisan and pro-Slavery character of this Court will be preserved intact. It therefore behoves every Freeman to remember that upon his vote, next November, may depend the important question, whether, or no, the Supreme Court of the United States is to continue to be the main reliance and bulwark of SLAVERY, and the great obstacle to FREE principles and progress.

OVER five hundred head of horses were sold in the Cincinnati market last week, at an amount not exceeding $50,000. The majority were taken for Kentucky, Tennessee, Alabama and California.

The Chicago Convention.

Correspondence of the Sentinel.

MESSRS. EDITORS:—Are not the railroads running west from your city, going to issue half-fare tickets to the Chicago Convention, to persons residing on the lines of their roads? I know there are *hundreds* along the line of the Milwaukee & Minnesota, and Milwaukee & Horicon railroads that would attend the Convention if they could go and return for one fare, who will not go and pay full fare both ways. I think the railroad companies would consult their interests to make the arrangement for half fare excursion tickets to Chicago and return.

Yours truly,
BEAVER DAM.

[We publish the above in order to call the attention of the managers of our Wisconsin railroads to the suggestion which our correspondent makes. We have no doubt that a great many Republicans would buy excursion tickets to Chicago during Convention week, who will not go there if they are required to pay full fare each way. The railroads can well afford to be liberal, in this matter, as they are sure to profit by it.—ED. SENTINEL.]

POSTAL RECEIPTS.—In the report made to Congress by the Post Master General, we find the following interesting facts relative to the postal receipts of those twelve States that exceed Wisconsin, for the year ending June 30th, 1859:

New York	$1,554,680 24
Pennsylvania	661,522 54
Massachusetts	607,219 40
Ohio	519,998 78
Illinois	440,585 77
California	283,467 63
Virginia	255,075 70
Missouri	227,576 65
Indiana	208,969 35
Louisiana	196,261 64
Connecticut	189,306 61
Maryland	180,258 28
Wisconsin	180,238 14

It will be observed that Maryland exceeds Wisconsin but $20 14. The large receipts of California are owing to the ten cent letter postage to and from that State. Wisconsin exceeds the other twenty States and five Territories whose receipts range, in round numbers, from $2,731 for New Mexico, to $168,664 for Georgia. These figures speak favorably for the intelligence of the people of Wisconsin, whose postage tax amounts to more than several other States whose representation in Congress two or three times exceeds hers.

THE LATE LAWRENCE JOHNSON.—The book publishers of Philadelphia held a meeting in relation to the recent death of LAWRENCE JOHNSON, the veteran type-maker, whose decease we have already alluded to. All the principal houses of the book trade were represented. Speeches were made alluding to the personal worth and business enterprise of Mr. JOHNSON, and resolutions of a similar tenor were adopted. As an interesting item of progress in the printing art it is stated that Mr. JOHNSON was one of the first in this country to practise stereotyping. Four months after he had adopted this branch of typography (1835,) he was able to execute all orders with his own hands. In 1858 his business had so enlarged that he was compelled to employ, in connection with the type manufactory, two hundred and twenty-five persons, producing annually 500,000 pounds of type, valued at $300,000.

CASE OF REV. DANIEL WORTH.—Rev. DANIEL WORTH, now in prison in North Carolina, for circulating a copy or two of HELPER'S Impending Crisis, is suffering very much from his confinement, and will not live long unless he is released. The better class of people in the country desire his pardon, and are endeavoring to accomplish it. They feel mortified and ashamed of the treatment bestowed upon the old man, but such is the terrorism which reigns throughout the State that they can do nothing, except by petitioning the Governor for a pardon.

MILWAUKEE AND MISSISSIPPI RAILROAD.—The N. Y. *Times* learns that a negotiation, pending for some days past, between the Directors of the Milwaukee and Mississippi Company and a committee of their bondholders, is likely to be brought to a successful conclusion,—to the general purport of capitalizing the whole bonded debt of the road.

The plan proposed for the accomplishment of this object is the one we published a few days since. It has been carefully drawn up and seems to give satisfaction to the parties in interest.

THE SLAVE TRADE IN FULL BLAST.—The Government has received reliable information that a cargo of Africans has been successfully landed upon the coast of Texas very recently, and a secret agent from the land office has been dispatched to that quarter for more definite information. The audacity with which these movements are conducted, and their successful issue, trouble the Executive officers not a little.

JAPANESE PRODUCTS.—The last advices from San Francisco state that the bark Rover, from Kanagawa, Japan, was discharging her cargo preparatory to the auction sale of the goods. The cargo embraces every variety of fancy goods, including a number of kinds which have never been imported before, and are thus entirely new to an American community. Mr. Habersham, who purchased the goods, bought out the stock of an entire store in Kanagawa, asking the proprietor what he would take for the lot, and paying him the money down. Among these articles are a quantity of swords of the finest manufacture, which none but a government officer would be allowed to buy. A majority of the cargo of the Rover consists of rapeseed oil, which will be disposed of at private sale. The oil will probably become the staple article of trade between Japan and the United States. It is believed that, ere long, the lighthouses of the whole country will burn it in preference to any other oil; and its usefulness as a lubricator is unrivalled. A lot of coal and dried cuttle-fish is also among the cargo.

THE STATE PRINTING MATTER SETTLED.—We learn that the controversy between Carpenter & Hyer and the State officers on State printing, has been amicably adjusted. Matters have been for ten days past in process of "fixing up," and the trade was finally closed a day or two since.

The terms, as we understand them, are that a fair scale of prices for all classes of work was fixed by S. P. Rounds, of Chicago, and Charley Holt, of Janesville. These prices are to be paid for all work not yet paid and for all yet to be done, but the gross sum is not to exceed, till the end of the contract, $38,000. This includes the amount sued for by Carpenter & Hyer, the suit to be withdrawn. Secretary Harvey has done the principal part of the settling. Of course the enemies of the *Patriot* think they have been paid too much, and its friends think it has sacrificed too much. They claim to have sacrificed about as much as they get; the amount they receive, in addition to what they have before had, will make about $85,000.—*Argus & Democrat.*

"PREPARE TO SHOUT."—The *Union and Democrat*, a few days ago, directed the Democrats to "Prepare to Shout," upon the reception of the final result of the Charleston Convention. We hope that paper will, immediately upon the perusal of our telegraphic report of this evening, give the time with a good, prompt, clear Hip! Hip! Hip! Hurrah! and a "Tiger." The Convention died a fearful fit of "*Delerium Triangles.*" The Coroner's Jury will sit on it at Baltimore, in June. Cause of death was, undoubtedly, "Irrepressible Conflict." Let the Democracy shout. Again we say, "Go in." "Prepare to Shout."—*La Crosse Republican.*

THE INGENUITY of Parisian cabinet makers has found a use for common saw dust, which raises the value of that commodity far above the worth of solid timber. By a new process, combining the hydraulic press with intense heat, the wooden particles are made to form themselves into a solid mass, capable of being moulded into any shape, and presenting a brilliant surface, with a durability and beauty of appearance not to be found in ebony, rosewood or mahogany.

QUAINT OLD GENTLEMAN, in speaking of the different allotments of men, by which some become useful citizens, and others worthless vagrants, by way of illustration, remarks: "So one slab of marble becomes a useful doorstep, while another becomes a lying tomb stone!"

QUERY FOR THE THEOLOGIANS.—"Can it be said with truth that we all are children of forefathers, when Moses plainly tells us that Joshua was the son of Nun?"

Land Plaster.

For the Daily Sentinel.

I saw in your issue of the 7th a communication signed "Agriculture," in which he gives some facts respecting the fertilizing properties and value of Land Plaster; and enquires if some more facts cannot be obtained from others. Having some years past used more or less plaster from the different beds in New York, and having seen its good effects there, I was induced to try it here, and having examined the Michigan plaster at the beds of Grand Rapids several years ago, I was convinced that it was of a suprior quality, and for three or four years past have used several barrels each year, and I am well satisfied with the result. I have used it here principally on clover and land that was sandy and gravelly, or rather a gravelly loam, sowing part of the field, and leaving part unsown, and I am satisfied that the part sown with plaster would yield nearly, or quite double the amount of hay to that which was not sown. I also sowed strips through a field, and the difference both in the luxuriance and color of the clover was discernable at a distance. I am satisfied plaster will be very beneficial to crops on a great portion of the lands in Wisconsin, and perhaps on all of them, but particularly on the oak openings; and that two bushels to the acre, (for I think that sufficient) will pay five hundred per cent—at least—on its cost, and perhaps, it would add one half; in many instances, such as a clover crop, it might double the amount.

The Michigan Plaster is of very superior quality, and contains more of the transparent crystaline selenite substances, or pure gypsum, than any other that I have seen, and is, I think, preferable to the New York plaster.

THE "SPIRITS" IN LAFAYETTE.

A Household in an Uproar—The Spirits Talk and Contradict each other—Tables, Chairs and Dishes moving about—A Bewitched Bed, &c., &c.

From the Syracuse Journal.

Most of your readers have doubtless heard of the operations of some mysterious and invisible power on the persons, furniture, &c., of the Johnson family, residing near Lafayette Square. The family consists of an aged couple and their grand child, a little girl about eight years old. They are quite respectable people, and the disturbances which have occurred in their house have been a great trial to them.

The first thing they noticed was that their salt dish and pepper castor were filled with water, then dishes commenced breaking; they would raise from the shelves and come to the floor with a crash; tables would move about and when loaded with dishes, turn over, destroying everything possible, and to such extent has this been carried, that they have been obliged to nail the table to the side of the house. Chairs will rise from the floor in the kitchen and go into the wood house without any person being near them; pails of water are often upset.

At one time Mrs. Johnson set an empty pail on the floor, and on crossing the floor it followed her; much vexed, she gave it a push, exclaiming, "Go back where you came from." It obeyed, but immediately returned to her again, crossing the room three or four times. While cooking their meals, the kettles will be upset and their contents landed quietly on the floor, much to the indignation of the household. One day as everything seemed to be breaking up, Mrs. Johnson thought she would put some of her most valuable articles of glassware in a pail and tie them to the side of the house with a rope. While attempting to do so, a coffee-pot came from the pantry across the room, striking her on the back. Calling the little girl, she told her to hold it down to the floor while she tied the pail, the child endeavored to do so, but her hands were twisted around, causing her such pain that she was obliged to let go, when the coffee pot again hit Mrs. Johnson; and as it came to the floor the handle came off. Mrs. Johnson then threw it in the stove, exclaiming, "I'll see if I cannot burn the witches out of it." One particular bed seems especially subject to strange influences; the clothes will be taken off, rolled up and put under the bed; and as for keeping straw in it, it is utterly impossible, it will be thrown all over the room. At one time Mrs. Johnson sewed up the bed with double twine, and with much satisfaction went to put away her needle; on returning, what was her dismay to find the sewing taken out and the straw flying about the room.

At first they were not much disturbed Sundays or evenings, but about two weeks ago one Sabbath morning, when Mrs. Johnson was alone, she sat down and began to read aloud in her Bible. Presently she heard a rapping on the stove. Having become accustomed to all sorts of disagreeable interruptions she determined not to notice it, but, raising her voice, commenced reading in a louder tone, but the rapping became also louder, and increased to such a degree that, finding her voice wholly drowned in the uproar, she at length desisted, when a voice said, "I will burn your Bible, I will burn your Testament, I will break your stove to pieces, I will tear up your floor." The Bible is often taken from the stand and hurled to the floor with such force that there is scarcely a whole leaf left. Since the first voice spoke audibly, two other voices have been heard speaking, in contradiction to each other. At one time one voice said, "It is the spirit of this child's mother who is doing all this;" another voice said, "No, it is the devil." Still another voice said, "It is one of your neighbors."

These singular occurrences of course attract crowds of people.

Being an acquaintance of the family, their niece handed the above communication to me, expressing a wish for its publication. I therefore submit it to you for consideration.

MRS. J. F. CLARK.

Three Days Later from Europe—The Heenan and Sayers Fight.

HALIFAX, May 2d.

The Royal Mail steamship *Canada*, from Liverpool on the 21st of April, and Queenstown on the following day, arrived here this evening.

There is nothing yet determined in regard to the great fight between Heenan and Sayers for the championship of England. The referee will not make a formal decision until next week. It is emphatically denied by both men that either desired the battle to be considered as drawn, and it is claimed for each that either could have won in a few minutes more. George Wilkes writes to the London *Times* denying that the referee stopped the fight at the request of Heenan and his friends, and asserting that Heenan virtually won the battle. He declares that Heenan is ready to renew the struggle at an hour's notice, and that he will accept of no other trophy but the belt, which he came to win, and which he honestly believes he did win, and which he believes he can win again, and that he will not leave England until he brings the late contest to a due conclusion.

Considerable sums of money had been collected on the London and Liverpool exchanges for Sayers. He was to attend the London Stock Exchange on the 21st to be presented with 100 guineas. It is thought that strong steps will be taken by the authorities to prevent another meeting.

The fight between Lynch, American, and Shaw, Englishman, for the championship of the light weights, was won by the latter.

The Prince of Wales was expected to sail for Canada in about a week.

WE OWN THE EXCLUSIVE RIGHT for the sale of MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES, for and within the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.
We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.
We shall recognize no Tipped goods within either the above States, but such are thus stamped and supplied by us.

Presidential Election!

THE GREAT CAMPAIGN

IS AT HAND!!

Let Every Republican Prepare for the Conflict!!

Circulate Truth among the People!!

THE WEEKLY SENTINEL

Six Months for Less than Cost of Paper and Printing!!!

READ AND BE CONVINCED!

The approaching campaign is to be a memorable one. The battle will be fought zealously between the friends and the enemies of Freedom, and the ground contested inch by inch. In view of these facts, it is apparent that the dissemination of Republican papers and documents becomes of vast and vital importance. In order to furnish the WEEKLY SENTINEL to the people of the North-West, during the Campaign of 1860, we have concluded to offer the paper, FROM THE 16TH OF MAY TO THE 16TH OF NOVEMBER, at the following unprecedented liberal terms:

One Copy for - - - -	$0 50
Twenty Copies, (to one address) -	$9 00
Fifty " " " -	$20 00
One Hundred do " " -	$35 00

These terms will barely cover the cost of paper before it is print-d; but we have determined to put the price so low that every individual Republican, or organized Club, in this or adjoining States, will use their best endeavors to scatter the SENTINEL broadcast in their particular localities, and thus accomplish more than by the circulation of *ten times* as many documents in any other form. Every Campaign subscriber will receive the Proceedings of the National Convention, to be held in May, and full returns of the election in November.

We need not urge upon our Republican friends the importance of placing this sheet in the hands of all. Let NO VOTER, or family in the State, be without the SENTINEL during the Campaign. Whereas we have *facts* are read, and the people have access to *truth*, Republicanism prevails.

Send in your orders as early in May as possible. ☞ Address

JERMAIN & BRIGHTMAN.

MILWAUKEE, April 9, 1860.

☞ REPUBLICAN PAPERS in this State, with whom we exchange, will please publish the above, or the substance of it, one or two times, and thereby lay us under additional obligation for the favor.

UNNOTICED HEROES.

BY REV. T. HERBERT.

Woods have their blossoms which we never behold,
And skies their worlds whose light is never shown.
Ocean its treasures hath of untold gold,
And earth her heroes that are all unknown.

You may meet them as you pass, and heed them not;
You may not know what looks before them fell;
You may not know what battles they have fought—
The wreathes that crown them are invisible.

Yet they have fought and conquered; they have bent,
Night after night, beside the couch of pain;
They have confronted scorn and death, and lent
Their blood to make the stricken whole again.

They have been pilgrims to that desert shrine
Which sorrow rears in the black realm, Despair;
Oft have they struggled in that gloomy mine
Where only dust is made the toiler's share.

They have beheld their sweetest hopes decay;
Oft have they seen their brightest dreams depart;
Have seen their golden idols turned to clay,
And many bear within a broken heart.

Their veiled and mighty scars they ever bear—
Those scars that life deep-burned into the soul—
Won where the flaming eyes of vengeance glare;
And the tumultuous fires of passion roll.

They have been victors! they have conquered fields,
Earth's dreaded Hannibals could never win;
They have struck down the sword Ambition wields,
And trampled Lust, and chained the hands of Sin.

They have won captives! their sweet tones have brought
The erring back to Virtue's flowery path;
Their every word echoes hearts substitution taught
To God's high will, and smoothed the brow of wrath.

They drink the dregs of trembling; but their moans
And anguished wails they stifle in the breast;
They say there is an Ear that hears their groans,
And in His house the weary will find rest.

Want, grief, the scorn of men on them descend—
Thy only stay it is His strength to own;
With chastened spirits to that will they bend,
Believing, striving, hoping, loving still.

O, there are daily martyrdoms that we
Heed not—the sufferers are to us unknown;
But angels from the Walls of Eden see
How glorious the laurels they have won.

The Time Ball on the Custom House.

From the New York Daily Times.

Workmen have been engaged during the past week in erecting the "Time Ball" on the Custom House, and from the street it seems to be complete although not yet in operation. The idea is to drop a ball at precisely 12 o'clock m., the time being found by astronomical means at the Dudley Observatory in Albany, and the ball dropped by an electric current from the Observatory to the ball. If this be well done, it will be a complete substitute for an astronomical observation here, and chronometers may be rated or clocks and watches set without resorting to astronomical means, the falling ball and naked eye being all-sufficient.

The time of passage of the electrical current is assumed as nothing; the difference of longitude between the place of the ball on the Custom House and the place of observation is allowed for, and is also the small time needed by the machinery to feel the impulse of the power. This is nearly inappreciable to the senses, and is expressed by a very small fraction of a second. For any other purpose it might be safely neglected, but not for this; the movement of the ball is to be a substitute for the passage of a heavenly body across a mathematical line. Considering this, the machinery and the whole apparatus are adapted to the end. As seen from the street, the apparatus is a slim mast of iron, exceeding forty or fifty feet above the roof of the building; this is held to its place by two sets of iron stays or guys—one set at about twenty feet above the roof, the other near the top of the mast—and the ball travels up and down on the mast, between the two sets of guys. The upper set does not extend to the mast, but to a set of cross-trees, in order to permit the ball to reach the cross-trees, against which it presses when at its greatest elevation. The ball is six feet in diameter—made of canvas on strong hoops, painted red, and perforated for the mast.

The operation is this: At a few minutes before twelve, the ball is hoisted by hand through machinery within the building, until its top presses strongly against the cross-trees, held there by a check or "detent" on the machinery in the building. The detent is removed by an electrical current, and this current is applied exactly at noon from the Observatory at Albany. The ball then falls not only from its weight, but also from the force of a spring considered necessary to quicken the first movement. A person at a distance watching the ball will be instantly surprised of the movement by seeing the sky between the cross-trees and the ball, and from this may adjust his time-piece with the same accuracy as if he were using the telescope at the Observatory. The ball moves about twenty feet in its descent, but is not permitted to fall with its whole force to the bottom. Weighing over a hundred pounds, and falling with great velocity, it would soon be battered to pieces; hence, when about half way down, it is made to feel so feel the force of a detaining spring, the effect of which increases during the descent until it stops the ball entirely just before striking the bottom.

The duty, for the day is then done, and everything remains as it is until a few minutes before noon on the next day, when the ball is again hoisted to be again dropped at noon, and so on day after day constantly.

There is nothing outside the roof of the building but the mast, with its cross trees and stays, and the ball, except a small, strong and flexible, but unyielding wire rope, to hoist and lower the ball, and through which the springs are made to affect the motion.—The mast is an iron tube four inches in diameter, and the rope passes up through the tube, fastening over a pulley, to the top of the ball and down at the outside, fastened to the bottom. Within the building is the machinery, the rope winds twice around a drum, which being turned by a crank, hoists the ball to its place against the cross trees at the top of the mast, and at the same time, near the end of the movement, draws upon the strong spring which, at the proper time starts the ball with a jerk. When the ball is at the top of the mast, the drum is in such a position that a small projection called a "detent" rests on the end of an upright iron bar, or lever hinged at the lower end. This bar can be drawn out of place by an electro-magnet which is placed near it, but which is inactive until the astronomer at the Albany Observatory touches a wire and thus supplies the electric current.

At this instant, the bar is drawn away from the "detent," the machinery is released, and the ball drops suddenly not only by gravity, but also from the action of the spring. The drum flies around, but when the ball is about half way down the mast, a cord wound round a fusee attached to the drum begins to pull on another spring, which resists gently at first, but goes on increasing until it checks the descent entirely, just before reaching its final resting place. There is a local battery in connection with the machinery, to supply the deficiency of the current from Albany—this arrangement being the same as in telegraph offices; and there are many ingenious details about the apparatus to meet the various contingencies, not necessary to explain except to experts. It is probably more thorough in conception and execution than any similar contrivance elsewhere, not excepting that on the Observrtory at Greenwich. The credit for this is due to Chas. T. and T. N. Chester, who designed and executed the work, on the order of several public spirited citizens—S. DeWitt Bloodgood, Esq., having suggested the idea, and, with Thomas Tileston, Royal Phelps and others, gave the labor and the means requisite to furnish this acceptable gift to our citizens.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Continuation of the Proceedings of the Southern Bolter's Convention.

CHARLESTON, May 3.

Mr. Barry continued, saying that the platform may be revised at Baltimore, and may be changed to meet our views. I think we are delegates to that Convention, and that we ought to go to Baltimore; if our constituents choose to let our places with other delegates to-morrow, they can do: we are, as yet, however, still members of that Convention, and no one except our constituents can take our credentials from us; therefore he hoped the course he urged would be adopted.

Mr. Hooker, of Miss., opposed the proposition of Mr Barry. We are no longer delegates to the Convention. We separated from them on principle, and he was unwilling that they should carry them to that Convention. If we adjourn without doing anything we will stultify ourselves. If we were to follow them to Baltimore, we would lose all the moral effect of this movement. Make your nominations now, manfully and boldly. He was for acting. We are here for an object and a purpose, and if we go home without action, we will merely be annunciators. A sentiment upon which there is no difference of opinion in all the Southern States. This is the time and the place for acting promptly and boldly.

Mr. Yancey, of Alabama, approved of the proposition of Judge Meek, for appointing a committee to prepare an address. He did not think it would either save or break the Union.

The delegate from Georgia, in predicting a disunion movement by disunion leaders, looked to the Georgia delegation, but declined to make who and what he meant.

Another Georgia delegate seemed to charge him (Yancey) with singing pens to the Union.

Mr. Jackson, of Ga.—I certainly never intimated that the sent from La. sang pens to the Union. Certainly no one will ever charge him with such an offence.

Mr. Yancey thought an address in a brief and simple form, should be presented before the country upon a true constitutional and national position.

The question was demanded. The resolution is as follows:

Resolved, That a committee of one from each State represented, be appointed to prepare an address to the people of the United States, explanatory of the reasons which have actuated this Convention in adopting the course it has pursued, and in vindication of its principles for action.

Gen Simmons, of S.C., thought there was no necessity for an address, nor would he follow the Convention to Baltimore. When he came out he left them forever.

Mr Reagan, of Texas, was in favor of both nominations and address.

Mr. Johnson, of Ga, offered as a substitute a resolution, that all who favor the action of the seceding delegates, meet them in Washington on the 22d Monday of June.

On motion the convention adjourned till eight P. M.

Mr. Bayard immediately left the chair, and addressed the convention. He reviewed the position of the seceders, and approved of the platform, but it was not in language that he would prefer. In regard to the resolution for postponing an adjournment and reassembling in Washington one week anterior to the reassembling of the convention at Baltimore, he could not approve of it.

He was unwilling to assent to the proposition of an address by a committee which was to go forth to the country before he could have an opportunity to examine it. He could not trust anything or set of men, however able or patriotic, to speak to the public for him. He therefore should oppose the Union.

He continued to speak nearly an hour, defending his position, reviewing the course of the National Convention, and said that 16 Northern non-democratic States had voted down 17 democratic States.

He desired the unity of the democratic party, and was prepared to support their nominee, if he should really prove a national man. His personal efforts were for Senator Hunter. He styled the *New York Soft* delegation as a band of political gamblers, and concluded by saying that he could not retain a seat in this Convention if that resolution was adopted.

He would approve of it as a delegate from twelve of the cotton States. He therefore asked permission of the Convention to decline the position in which they had placed him, and to retire. He spoke for two hours very eloquently against disunion, and on finishing took his hat and retired from the Convention.

Robt. Scott, of Alabama, was then chosen President.

Judge Meek called up the resolution, but as Mississippi and Texas objected to an address it was withdrawn.

Mr. Jackson then offered his resolution for a Southern Convention to be held on the 2d Monday of June, which was adopted with but five or six dissenting votes.

A resolution providing that an address on the grounds on which the Southern States seceded from the Convention be prepared and published together with the proceedings of this Convention was adopted, when the Convention adjourned sine die.

M. E. Conference.

BUFFALO, April 4—3 P. M.

The 4th day of the M. E. general conference session. This morning Bishop Ames presided. The delegation from the M. E. Church of Canada presented their credentials and were received as members of the conference and delivered an address, as did also Rev. Robinson Scott, delegate from the Irish Methodist Episcopal Church. The rules were suspended for Bishop Janes to read the Bishop's address to the conference, which was a document of some length and of marked ability. The order of the day was resumed which was the presentation of petitions, memorials and appeals from the various conferences. The remainder of the session was consumed in the same manner as in the previous session. The majority of the petitions were on the subject of slavery and almost without exception in favor of a change of the church discipline on the subject.

A large police force were ordered to be at the wharf to preserve order.

Morrissey got quietly ashore, and left in the morning train for Albany. The Roughs express disappointment.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Washington Matters.

WASHINGTON, May 4—9 P. M.

Mr. Bayton, late American Counsel at Manchester, and agent of the Cotton Association of Georgia, has returned to the U. S. with full particulars to take initiatory steps to establish a direct cotton trade between this country and Europe. Congress has already passed a law, making Macon in Georgia, a port of entry, with a view of admitting such goods as may come from Belgium and other Europ an states to be exhibited at the contemplated Fair in that city.

The aid of the Statistical office of the State Department will probably be sought in furtherance of the enterprise in which the Belgium minister fully concurs, and it is ascertained from persons fully conversant with the subject, that the Belgian government is not only willing to encourage the project, but has advanced funds to Mr. Bayton to open a central agency in the city of Baltimore.

The Supreme Court adjourned to-day until next December. About seventy California land cases adjudicated. Thirty were decided, on the ground of fraud, in favor of the Federal Government. These involved over one million acres of land, worth fifteen or twenty million of dollars, and includes the Bolton or Santa Anna case, this claim being for ten thousand acres in the city of San Francisco and twenty thousand outside its limits, and declared to be worth ten million dollars. The opinion of the Court in this case was that the claimants showed no legal title or evidence in support of the claim, and that the evidence satisfied the Court that the claim was falsified in 1850, and was antidated, and that it was false.

Charleston Matters.

CHARLESTON, May 4—9 P. M.

He states that he approves of an Anti-Squatter Sovereignty Platform against Douglas, are invited to send delegates to Richmond.

Gen. Cushing has gone to Sullivan's Island to spend a few days.

Strangers are leaving the city in crowds, and all the hotels are nearly deserted.

COLUMBUS, May 4—9 P. M.

A national salute was fired at 7 P. M., in honor of the Ohio delegation, and in approval of their course in the National Convention at Charleston.

FINANCIAL CONDITION OF THE WEST.—Accounts from the West are more cheerful and hopeful than at any other time since the great panic passed over the land, and "nipped in the bud" the energies and enterprise of that important section of the country.—The condition of business in that quarter both now and prospectively, engages the attention of all engaged in the Stock Market, and for that reason we give it especial prominence. The following extracts are from a letter written by one of the most intelligent citizens of Chicago; one who has been closely connected with Western matters for many years, and whose opinions are held in high esteem both here and at the West:

"The cities and towns and the whole country are wonderfully and abundantly developed and prepared for business, by railroads in every direction, by abundance of ships, steamers, propellers, &c., indeed, by every facility which man could devise. The people have grown very economical and industrious, and the country is every day being prepared for greater productions, and through increased improvement of agricultural implements, at reduced cost to the farmer. The spring opens unusually well, the great bulk of the spring wheat is already sown, and the strongest and surest ground for a good crop is an early spring and early seeding.

There is no room to doubt but that henceforth the West is to progress again every way, and in the next ten or twenty years increase and expand in numbers and solid wealth to a greater extent than ever before, and I doubt if five years will pass before Chicago will ship forty millions instead of twenty million bushels of grain per annum, and in other commercial relations, enlarge accordingly."

From this, and other sources of information we are led to conclude that the Western portion of the country has passed through the hardest times, and that henceforth we may look hopefully forward.—*N. Y. Tribune.*

Yesterday's advance in wheat was lost to-day, the market declining 1c. There was considerable activity at the decline, the sales reported on 'Change amounting to nearly 20,000 bus. The closing prices were $1,11 for No. 1 on track, $1,12 delivered; $1,14@1,15 for sample lots of Club, and $1,16@1,17 for Extra. Not much was done in the afternoon, and no disposition to speculate was exhibited. In flour, transactions were confined to a couple of small transactions that furnish no indication of the tendency of the market.

Coarse grains were quiet and unchanged. Oats 31 @32c, with some enquiry for shipment at the inside figure. Shelled Corn 52c.

We have heard of no freight engagement. The nominal rate for wheat to Buffalo is 4½c.

CHICAGO MARKET, MAY 3D.—The *Times* this reports the market:

FREIGHTS.—Steady, with some activity. The schooners Onward, Ocean Eagle, Fontanelle, and C. C. Trowbridge, were chartered to-day—corn to Buffalo at 3½c.

FLOUR—Receipts 1,870 bbls; shipments 6,031 bbls.—The market was better, but the majority of buyers are yet awaiting either a decline in views of holders, or still more favorable advices from Eastern and European markets. Sales of 400 bbls yesterday at $4,75 to Old Genesee. Mills at $5,20; 200 bbls Princeton, at $; 100 bbls good spring extra at $5,20; 100 bbls do at $5,37½; 100 bbls Oshawa at $4,20; 200 bbls Ionia at $5,62½, delivered; 100 bbls Terra Coupe at $5,40—closing firm.

WHEAT—Receipts 38,351 bus; shipments 13,361 bus. The market was firm, the recent heavy receipts having no effect in reducing prices. MARINE ITEMS.

FRIDAY, P. M.

FOR BELLE.—The propeller *Michigan*, for Ogdensburgh, the *Potomac*, for Buffalo; the schrs. *G. D Norris*, *John Weeden*, and *Dispatch*, for Buffalo, and the schr. *B. Parsons*, for Oswego, are included in our list of clearances to-day, all loaded with flour and wheat.

THE SCHOONER J. P. KIRTLAND.—Tug wrecking tug *Oswego*, Capt. KIMBALL, arrived to-day, with the schr. *J. P. Kirtland* in tow, from the Manitous, where she went ashore late last fall and spent the winter. It was a difficult job to get her off, requiring a great deal of skill and *pulling*, in neither of which qualities Capt. KIMBALL or his tug is lacking. The *Kirtland* had a steam pump in operation, on board, when she came in, but did not seem to be seriously damaged. She went into WOLF & LAWRENCE'S dry docs, for repairs.

CHICAGO, MILWAUKEE, & GREEN BAY LINE.—The propeller *Ogontz* has been withdrawn from the Chicago, Milwaukee and Green Bay line, the *Wabash Valley* taking her place. Of the change, the Green Bay *Advocate* says:

This is a great improvement, as the W. V. has been newly fitted up in the best style to accommodate passengers. Her officers are all old, competent seamen, and her owner, Mr. Goodrich, is a gentleman. Passengers will find this a much cheaper route than by rail. She is also fitted up with all the safeguards and modern arrangements of life-boats, force-pumps, &c., &c., it will be full as safe. As a protection against fire she has a force pump, worked by a pony engine, which is capable of throwing four streams of water at once to any part of the boat. She will leave this port every Saturday morning.

The *Ogontz* will run the balance of the season between Chicago and Big Bay de Noquet.

VESSELS PASSING DETROIT.—The following vessels passed Detroit, between 2 P. M. Wednesday, and 2 P. M. Thursday of this week:

Bound Up—Propeller Mohawk; bark Great West; brig Bay City; schooners C. N. Johnson, Challenge.

Bound Down—Steamer Michigan; propellers Akron, Rescue, Rocket, Cal Concord; barks Thomas H. Park, Sarah Bates, David Nevin, J. Winslow; brigs Caroline Hepi, Marquette, Sturgis, E. C. L., Naomi, R. S. Sheppard, R. A. Packard; brigs Fanny Gardner, F. R. Gardner, Clarion, C. P. Williams, D. Ferguson, Rockaway, Ben Bolt, Brown, Arctic, D. H. Martin, Antelope, Mint Root, Mary Collins, Carrington, Metropolis; Milwaukee Belle, Tracy J. Bronson, A. E. Hart, Mary M. Strait, R. Ludwig, Hampton, Hampton, Jr., Wyandotte, Greenback, Ambrose, Wm. Peacock, Tiro, Perry, Live Oak, T. Bates, Conroy, Melrose, Starlight, W. S. Nelson, Mediterranean, Granada, T. Kingsford, Mazeppa, Col. Hunter, Wilmington, Return, Cairo, A. Handy, Fred. Hill.

The Detroit *Tribune* of Thursday has the following items:

SCHR. LUCY J. LATHAM.—We learn that the efforts to get off the *Latham*, ashore below Bois Blanc, have so far proved fruitless, and orders have been forwarded to Buffalo for more help in the shape of steam pumps, &c.

The scow *L. B. Goldsmith*, which went ashore last October near Lakeport, on Lake Huron, has been raised and launched, and is now being fitted for sea.

We regret to learn that up to yesterday but little had been accomplished towards getting the tug *Iosco* afloat. The tug *Elliott* is at work at her.

The brig *Iroquois* has been got off the beach at Fort Gratiot, and has been towed to Port Huron for repairs.
